\*36 people were registered as Sail Pass members. This was the first full membership year this option has been provided. It proved very popular for those wanting to try sailing. It is expected when we return to more consistent and predictable sailing, more Sail Pass Members will take up full membership.

Full membership levels back to pre-Covid levels despite lock downs and border closures over the previous 12 months.

Sailing Australia has recently rolled over to the 2021 /2022 membership year. An email on the new membership year has been sent, with a number of members registering.
