

...Hi All,

With me being in Qld, I'm unable to conduct any SheSails programs at present.

Once the borders open, and there is a full understanding of the Covid rules to be set in place, I'd love to run another SheS

Laura Stoltenberg from Richmond River Sailing Club has a women's series racing program in place with the last one being participating in it.

At the end of October Maddie, Kate and myself attended the Women's keelboat regatta. With Maddie as skipper, we came teams from Mooloolaba - having good knowledge of the small sailing area), and travel around the country competing again opened our eyes to what else is going on in women's sailing. Mooloolaba also run women's development courses each season. We wore TVSC blue long sleeved shirts and a red cap, with red zinc - we looked very professional!

When the borders do open, with permission to use the club pacers, we could have a women's series with the pacers, similar to the confidence of those women who have gone through the last 2 courses held, plus the existing female members, to learn from them.

So once there's clarification on the borders in relation to Covid, I'll run another course, and send out a survey on a pacer run.

Kind regards
