<b>Potential / not Accounted*</b>	20*	36	21	10	-

The membership year from 1 October 2021 to 30 September 2022 was another successful year for the club, especially considering the disruptions of border closures and flooding that impacted the first half of the membership year.

\*The club undertook introductory sail courses as part of the She Sails and Introduction to Sailing courses. These were very successful, attracting 26 attendees. Whilst eligible for membership as part of the course, only 13 signed as members. There were also 7 Sail Pass participants that didn't become full members.

A Junior School holiday course is currently underway with 10 participants that will be included in next years' report.

Sailing Australia has recently rolled over to the 2022 /2023 membership year. An email on the new membership year has been sent. A number of members have registered.
